DMK

We believe that better skin leads to a better life.

We believe in creating confidence.

We believe a beautiful day begins with beautiful skin.

We believe in being the best version of yourself and smiling at the reflection in the mirror.

We believe in loving your skin and that great skin lights up the world.

We believe that everyone deserves great skin.

We believe in giving you the skin you dream of.

We believe in happy skin.

DMK Transdermal Nutrition Facials

Traditional cosmetic relaxing facials work only on the surface of the skin. DMK Transdermal Nutrition Treatments use transdermal delivery to generate change at a cellular level, whilst simultaneously improving the aesthetic appearance of skin. Your Paramedical skin care technician will choose a customised treatment protocol to hydrate, protect and restore your skins natural balance

Advanced Skin Revision

DMK's Lunchtime Peel

A controlled micro-removal of the epidermis, leaving the skin looking instantly radiant and luminous. It is also a great option to minimise fine-lines and wrinkles, minimise open pores and brighten the skin. This process also encourages new cells to grow stronger and healthier – this peel addresses the symptom of the condition without any visible downtime or post treatment irritations

30 minutes \$139

DMK Enzyme

Therapy Enzyme therapy treatments improve the skins ability to function by dissolving dead cells and impurities trapped within the skin this in turn restores vital cellular nutrition and oxygenation required for cellular regeneration.

DMK's signature treatment Enzyme Therapy

- includes your choice of express manicure or pedicure.

Infra Red Sauna Blanket \$55

IPL Facial Rejuvenation

Exposure to the sun can damage the skin and cause common skin imperfections such as redness, freckles, age spots and uneven skin texture. IPL Facial Rejuvenation Treatments works to rejuvenate your skin and visibly reduce skin imperfections. During the treatment intense pulsed light is delivered to the skin and is absorbed by unwanted skin pigmentations, causing the pigment to shatter and seal the surrounding small blood vessels. The heat energy of the light stimulates new collagen production, firms the skin and reduces skin pore size, resulting in a more perfect looking skin

Full Face Treatment	\$250
Full Face and Decolletage Treatment	\$350
Course of 3 Full Face Treatments	\$639

Skin Micro Needling

Micro-needling is aimed at stimulating the microcirculation and the natural processes of collagen production and regeneration. We use Micro-needling pen device which creates Micro-punctures of the skin across the entire face whilst a Gel Solution is applied to the skin surface and subsequently absorbed through the micro punctures allowing the gel formula to be active in the deepest layers of the dermis, maximising collagen reproduction, stimulating and renewing skin cells.

Treatment results include: skin hydration, increased skin tone and smoothness causing existing wrinkles to be less visible and skin younger looking. To achieve desired results we recommend 3 treatments in 2 week intervals. The results continue up to 6 months post treatment.

Face Neck & Dec includes LED Light Therapy	\$250 per treatment
3 x Micro-Needling with LED light	\$699

HIFU

HIFU stands for Hi intensity focus ultrasound, it is the latest non-invasive technology for facial lifting, skin tightening and body sculpting. HIFU directly delivers the ultrasound energy to the skin and subcutaneous tissue that can stimulate and renew the skins collagen and thus consequently improving the texture and reducing sagging of the skin.

It achieves a facelifting & tightening without any intensive surgery or injections and the added bonus of this procedure is that there is no downtime. It also works equally well for people of all skin colours. The ultrasound energy goes down 1.5 to 16 MM into the skins muscle layer to tighten and lift the skin from within. The HIFU treats the same level as a surgeon would for a face lift or skin tightening procedure.

Full Face and Neck Treatment

\$1500

Cryo V Double Chin Fat Freezing

Cryo V is a cosmetic treatment to remove areas of body fat. It works by freezing the fat cells from specific parts of the body where it is more difficult to remove fat that by diet and exercise. Cryo V is a noninvasive treatment so there is no damage to the skin or underlying tissues. During the procedure, your therapist vacuums the skin above the area of fatty tissue into an applicator that cools the fat cells. The cold temperatures numb the area, and some people feel a cooling sensation.

There is no recovery time because there is no damage to the skin or tissue. Some redness in the treatment area occurs but fades with in the first couple of minutes and it can feel like you have taken the treated area to the gym. After the procedure, it may take around 3–6 months for the fat cells to leave the body. In that time, the area of fat will decrease by 20 – 25 percent. In some cases 2 Treatments 8 weeks apart may be necessary to achieve the desired result.

\$299 per treatment
